

COOKOO BOX NURSERY

ESTABLISHED

1990

WELCOME TO COOKOO BOX CHILLI NURSERY.
 WHAT A YEAR US GROWERS HAVE HAD .WEATHER WISE FEBRUARY WAS LOVELY.
 NICE BRIGHT SUNNY DAYS ,BUT BY THE END OF FEBRUARY EARLY MARCH THE LIGHT
 LEVELS DROPPED AND THE RAIN CAME AND DIDN'T SEEM TO WANT TO LEAVE.
 EVEN WITH SUCH A MISERABLE SUMMER, WE STILL HAD OUR CHILLIES OUT SIDE. JUST
 MAKING SURE THEY WERE ON FREE DRAINING BENCHES.
 IN JUNE WE HAD THE BBC FILMING IN THE NURSERY FOR COVERAGE OF HAMPTON COURT.
 GREAT FUN WAS HAD BY ALL.
 OUR OPEN DAY WENT VERY WELL DESPITE HAVING A FREAK HAIL STORM A FEW WEEKS
 BEFORE. WHICH LEFT A LOT OF LEAF DAMAGE, BUT NO PERMANENT DAMAGE.
 WE HAVE ADDED MORE VARIETIES TO THE CATALOGUE THIS YEAR INCLUDING MANY
 MORE VEGETABLES (SEE PAGE 12) AND ARE TRIALLING MANY MORE. .OUR WEBSITE
WWW.COOKOOBOXCHILLIES.COM HAS PROVED TO BE VERY POPULAR. WERE YOU WILL
 FIND COLOUR PICTURES OF SOME OF THE VARIETIES IN THIS CATALOGUE. ALSO SOWING,
 GROWING AND PRUNING TIPS.

SHOW DATES

NOT ALL SHOWS HAVE BEEN
 CONFIRMED AT TIME OF

SOWING

SOW IN A SEED TRAY FEBRUARY ONWARDS. GERMINATION AT 75oF TO 80-oF.

COVER SEEDS LIGHTLY, KEEP MOIST, BUT DO NOT OVER WATER.

GERMINATION FROM 10 DAYS ONWARDS.

THE PLANTS LIKE TO BE TIGHT IN THEIR POTS EVEN IN THESE EARLY STAGES. NEVER OVER POT.

PLANTS

FOR SO MANY YEARS THE CHILLI HAS BEEN GROWN IN THE GREENHOUSE NEXT TO THE TOMATO, FED ON TOMATO FEED AND GROWN JUST FOR THE FRUITS.

IF YOU ARE GROWING JUST FOR THE FRUITS THIS IS FINE, BUT YOU WILL WEAKEN THE PLANT AND WHEN IT COMES TO OVER WINTERING YOU MIGHT FIND THAT THE PLANT MIGHT STRUGGLE OR DIE.

WE GROW THE CHILLIES FOR THERE FLORAL ATTRIBUTES AS WELL AS FOR THE FRUIT

WE FEED TWICE A WEEK ON A BALANCED FEED SUCH AS PHOSTROGEN OR MIRACLE- GRO.

KEEP ON THE DRY SIDE, NEVER OVER WATER OR STAND IN WATER.

IF YOU CAN PUT THE PLANTS OUT SIDE DURING THE SUMMER YOU WILL FIND IT WILL STRENGTHEN THE PLANTS MAKING A STRONGER PLANT TO GO THROUGH THE WINTER.

USE AS BEDDING, PLANT CHILLIES IN THEIR POTS .

OR HAVE THEM ON A SHELTERED PATIO OR BOARDER.

BRING IN TO FROST FREE POSITION DURING WINTER.

FROST FREE GREENHOUSE OR SHED(PLACE NEAR WINDOW).

OR BRING INTO HOUSE AND PLACE PLANT IN A BRIGHT ROOM

PRUNING.

PRUNING IS OPTIONAL.

IF PLANT HAS GOT TO BIG OR IS MISHAPED,CUT BACK IN SPRING .

FRUITS.

FRUITS CAN BE EATEN AT ANY COLOUR(INCLUDING PURPLE) OFTEN THE FIRST COLOUR WILL HAVE DIFFERENT TASTE AND STRENGTH

HANG FRUITS IN DRY AIRY CONDITIONS.

FREEZE WHOLE FRUITS.(GRATE STRAIGHT INTO CULINARY DISHES)

PRESERVE IN VINEGAR OR OILS.

PLACE ON TRAY, TURN OCCASIONALLY IN OVEN ON A VERY LOW HEAT.

HANG OUT FOR BIRD FEED.
